

WILLIAM JAMES
COLLEGE

“Careers in Psychology & Human Services Information Session”

William James College provides complimentary presentations tailored to students interested in developing their careers and completing a Bachelor in Science in Psychology and Human Services. Learn about the variety of careers in the Mental Health and Human Services Field.

This program is for students or community college graduates who are interested in an overview and discussion on:

- First Steps in Choosing a Career in Psychology, Mental Health or Human Services.
- Students who are nearing completion for their AS/AA degree and seeking an entry-level career in human service.
- Employees of human service agencies seeking to advance their careers and deepen their understanding of human behavior.
- Employment options available with a bachelor's degree.
- Specific jobs and roles in human services.
- Level of training: Associate's vs Bachelor's degree.
- Various settings and populations in need of human service workers.
- Getting Some Answers About Next Steps in a Career.

For more information, or to schedule an Information Session, contact Beth Rogan at beth_rogan@williamjames.edu or call **617-564-9421**.

Founded in 1974, William James College is an accredited institution of higher learning. We prepare students for careers in clinical, counseling, school, human services and organizational & leadership psychology. All of our programs offer a unique training approach with a focus on the immediate integration of clinical experience with academic studies.
